# 1 Overview

This section provides an overview of the thesis. It outlines the main objectives, research questions, and the scope of the study. The overview gives a snapshot of what the reader can expect from the document.

## **2 Rationale**

The rationale section explains the reasons behind choosing the particular research topic. It highlights the significance of the study and its relevance to the field. This section also discusses the motivation and purpose of the research.

### **3 Significance**

In this section, the importance of the study is detailed. It describes the potential impact of the research findings and their contribution to the existing body of knowledge. The significance section outlines how the study addresses gaps or challenges in the field.

## 4 Scope and Delimitation

The scope and delimitation section defines the boundaries of the research. It specifies the limitations and constraints of the study, including the aspects that are not covered. This section helps in understanding the scope within which the research is conducted.
